

CHAPTER 7

Part V. From the Marginal Questions

1. What valuable lessons and truths about the meaning and importance of being created human are missed by those who deny the truth of Genesis One and Two?

2. How do both the wider and narrower senses of the image of God in man contradict the evolutionary theory?

3. When does the restoration of God's image in its narrower sense begin in the life of a child of God? When will both senses of God's image be perfectly restored in him?

4. When viewing the value of the gifts of a healthy mind and body, how are we all "millionaires"?

5. When we sin, how are we directly insulting and grieving the One who is giving us the precious gifts of life and health at that very moment?
